

**Medical Interventions Syllabus**  
**Torah High School 2024-2025**  
Instructor: Tracey Milani, Ph.D.  
Student Contact: Canvas Inbox  
Parent Contact: tmilani@gmail.com

Welcome to Medical Interventions (MI)! MI is the advanced course in the PLTW Biomedical Pathway and is an Honors UC-D level lab science course. MI allows students to investigate the variety of interventions involved in the prevention, diagnosis, and treatment of disease as they follow the lives of a fictitious family. The course closely aligns with Introductory Biotechnology at Miramar College. At the end of the course, students will have the opportunity to take an articulation exam to possibly earn college credit for Biol131 at Miramar College.

### **Required Materials**

Please bring these items to class every day:

- *A 3-ring binder with lined paper (not digital),*
- *calculator,*
- *Biol 131 lab manual (provided), and*
- *a computer.*

The curriculum will be accessed using mypltw.com and Canvas.

### **Communication**

The best way for students to reach me is through the Canvas Inbox. I encourage students to be proactive in communicating with me. If you know that you will miss a day, let me know ahead of time. If you have any questions at all, send me a message in Canvas or ask before or after class.

Parents, please feel free to reach out via email at any time. My goal is for each student to be successful in this course and to foster a love of the sciences. I will typically respond to emails within 24 hours on weekdays. It may take me a little longer to respond if I am contacted over the weekend.

### **Grading Scale**

All course work will be awarded point values. All grades will be posted in Canvas.

#### **Formative Work**

Formative work includes homework, class warm-ups, quizzes, study guide creation, pre-labs, etc., and is assigned to help students learn concepts in preparation for summative work.

#### **Summative Work**

Summative work includes unit tests, midterms, and alternative assessments (such as presentations, lab practicals, posters, papers, projects, etc.).

Final Grades earned follow the Torah High Grading Scale:

A	100 - 92.5
A-	92.4 - 89.5
B+	89.4 - 86.5
B	86.4 - 82.5
B-	82.4 - 79.5
C+	79.4 - 76.5
C	76.4 - 72.5
C-	72.4 - 69.5
D+	69.4 - 66.5
D	66.4 - 62.5
D-	62.4 - 59.5
F	59.4 and below

### **Articulation Exam**

This class articulates with Miramar College. Biology lab science college credit (4 units of Biology 131) will be earned by students who pass this exam with a minimum of a B (80%).

### **Attendance and Late Work**

Attendance is critical. There are many things that we do in class that cannot be made up, such as labs. Please understand that students are responsible for all class content, even if they are absent.

Any student will be able to clear absences/truancies by following the Torah High School guidelines.

Whenever a student is absent for any reason it is their responsibility to find out what they missed/how to make up work. In the case of an excused absence:

- Formative Work is due by the start of the class day after your return. It is the student's responsibility to check for missed work and make up any missed assignments. Make sure absences are excused in a timely manner or full credit will not be received.
- Summative Work can be made up the class day that the student returns. Please note that this means the student will miss what we are working on in class that day.
- It is the student's responsibility to make arrangements to make up missed assessments and in-class work. Labs may not be available to makeup. An alternative lab will be assigned, if possible.

In the case of truancies/unexcused absences, late work will not be accepted, and the student will earn 0 points on the graded item(s) (formative and/or summative).

General late work: If a student attended class but did not turn in a graded item by the due date/time, late work will be accepted for a period of one week after the due date/time for a reduced point value. Typically, there is a 5% deduction on the earned score per day late up to the 7-day mark, after which no work will be accepted.

### **Tardiness**

Please see the Torah High School policy on attendance.

### **Academic Honesty**

Do your own work. Plagiarism/cheating earns 0 points on the assignment, a phone call home, and a possible conference. **You always need to do your own work and write answers in your own words even if you are working with a partner.** If you turn in an identical assignment as another person, it is cheating. If someone takes your work and copies it, both parties will still be held accountable. Unless expressly designated in the assignment instructions, use of AI is not allowed in this course.

### **Safety**

Goggles and other personal protective equipment must always be worn during lab activities.

**Students who are negligent during lab activities (safety violations) will receive a 0 on the lab assignment, and a phone call home.**

### **A note to parents/guardians**

Thank you for taking the time to review this syllabus with your student. This should be a fun and engaging course. If you have any questions or concerns at all, please contact me. I look forward to working with you to help your student succeed.

Sincerely,

Tracey Milani, Ph.D.  
Medical Interventions Instructor

Course Contract  
Parents/Guardians and Students  
Please Complete and Return to Dr. Milani

Student Section:

I have read, understand, and will follow all classroom rules and procedures for Dr. Milani's Medical Interventions course. I agree that all safety rules must be followed, and that violation of safety rules will result in loss of laboratory privileges/referral. I have discussed the course requirements with my parent or guardian.

Parent/Guardian Section:

I have read, understand, and will support the classroom policies, rules, and procedures for Dr. Milani's Medical Interventions course as described above. I have discussed the course requirements and expectations with my student and will support my student in the achievement of these expectations.

In addition, I understand my student must follow all safety requirements and rules during lab activities. Failure to follow rules will result in a referral and other consequences deemed appropriate by Dr. Milani. I give permission to have my student engage in laboratory activities using a variety of science equipment and materials, including chemicals and biological materials.
