

AP Calculus BC

2025 -26 COURSE SYLLABUS

INSTRUCTOR: Andrea Steel

EMAIL: andrea_steel@hotmail.com AP classroom: N6ZE7N

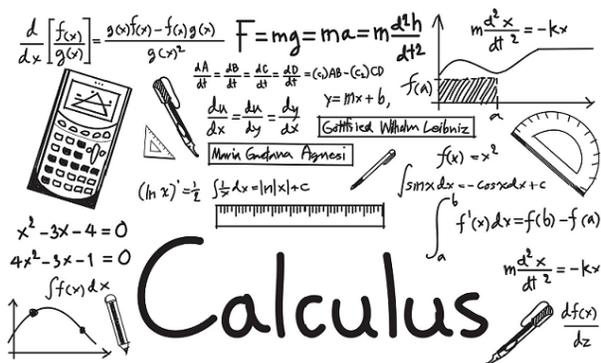

Welcome to AP Calculus BC. I am excited to be your teacher this year. I was born and raised in Germany and moved to San Diego when I was 21 years old to study math at SDSU. I have 5 amazing children and enjoy spending time with them as well as my four adorable grandkids.

I had incredible math teachers throughout High School and knew early on that I wanted to become a math teacher. I started teaching at SDSU as a teaching assistant while getting my masters. Since then I have taught at High School and several community colleges.

I believe that with hard work and dedication you can do well in this course. Please spend some time each day on your homework and other assignments. We will do a lot of hands on learning in this course and I hope you will have a good time. I am always here to support you in your learning!

We will do a lot of AP practice and use the AP platform for exams. I am super excited to be working with the students at Torah High this school year.

Graphing Calculator:

A calculator capable of calculating probabilities from common distributions and single-variable statistics is required

- The TI- 84 (or TI-84 plus) calculator will provide quick shortcuts for many things learned in class (approx \$100).

GRADING POLICY:

Grades will be based on the following assignments:

Homework 10%

Classroom activities 10%

AP Practice 10%

Exams 70%

Points and assignments above may be subject to change.

ACADEMIC INTEGRITY AND PARTICIPATION

Students are expected to be honest and ethical at all times in the pursuit of academic goals. Students who are found to be in violation will receive a grade of zero on the assignment, quiz, or exam in question. Students are expected to participate in class and stay on topic at all times. This is a fast paced and rigorous class.
