

My name is Mira Abrevaya Shacham. My family and I arrived from Israel to sunny San Diego a year ago. I graduated from Tel-Aviv University, and over the years have taught Hebrew to students of many ages and levels. I believe that understanding the Hebrew language is a fundamental and meaningful way to strengthen our connection with Israel. The language creates a bridge to a deeper understanding of the Israeli experience, Israeli culture, and Jewish heritage. I currently teach Advanced Hebrew at Torah High School. We are very happy to be here and to be part of Torah High's wonderful community.
